

## COMPACT STAINLESS STEEL DEHUMIDIFIER

- **Capacity:** 20-25 pints  
(80° @ 60% relative humidity)
- **Watts:** approx 135W
- **Air Movement:** 175 cfm
- **Weight:** 14.5 kg
- **Dimensions:** L = 330 mm  
W = 375 mm  
H = 190 mm

The Dry-Pal™ dehumidifier's compact and robust design is well suited for many different applications. The Dry-Pal™ is the right choice for moisture control in boats, campers, huts or anywhere a compact energy efficient dehumidifier is desired.

Its attractive stainless steel cabinet assures that it will be equally at home in a marine environment, or in your favourite recreational vehicle. The Dry-Pal™ incorporates a free-flow evaporator pan that can discharge water directly into a sink, shower or other fixture. If desired, a flexible pipe can be added to discharge the water out of the conditioned space.

The tough design features of this unit ensure it is happy to run 24 hours a day for 7 days a week – permanently on! This gives you the peace of mind that your vessel is kept dry and free from corrosion and mould – increasing the life of equipment and furnishings alike!

Model	Part No.	Voltage	Weight
Dehumidifier	Dp-1	110V AC	14.5 kg
Dehumidifier	Dp-2	220V AC	14.5 kg
