

Paguro 14000

The Paguro 14000 marine generator is a good choice for larger boats 50'-70' with significant power requirements and a need for low weight and compact size. Often used in commercial applications such as survey, police and naval patrol vessels.

Peace & Quiet

Cocooned in a 4- stage soundproof capsule to keep noise to a minimum. Anti-vibration feet, both internal and external ensures that the generator runs smoothly. The result is a generator that quietly does its job whilst you relax on board.

Independence

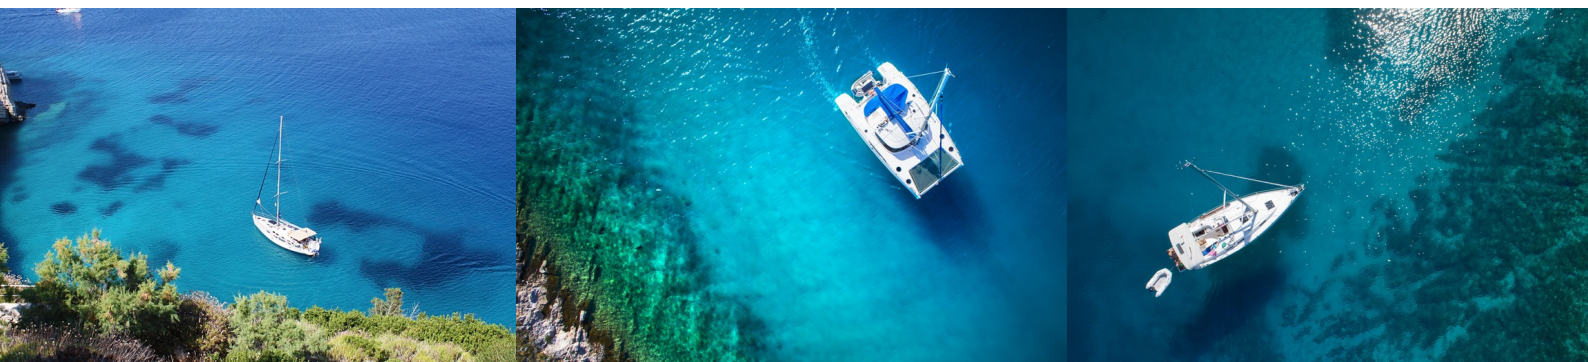

With a Paguro 14000 on board you can enjoy the full potential of your yacht. With a power supply greater than having shore power on board, you'll have the freedom to explore in comfort and safety.

Low Cost of Ownership

Designed for ease of maintenance and single side servicing, with an oil change hand pump for clean and easy oil changes. It also has the added bonus of longer service intervals than comparable generators.

Safe Hands

The Paguro 14000 is a tried and trusted design that has been in successful production for many years. The popularity of the LOMBARDINI & Paguro brands around the globe ensures that wherever you are in the world, you won't be far away from spares and servicing support.

Model

Paguro 14000

Dimensions (LxWxH)

860 x 580 x 650 mm

Weight

210kg

Sound level @ 7m

54 dB(A)

Cooling System

Fresh water cooling via heat exchanger

Continuous output

14kW / 14kVA

Peak Current for Start-Up Loads

180A (2 seconds)

Voltage / Frequency

230V / 50hz

Alternator

Synchronous / brushless

Starter System

12V electric start

Remote Control Panel

Paguro 14000 control

Auto Start

Available as an option

Engine Manufacturer

LOMBARDINI

Engine Type

LDW 1003 - 3 Cylinder - Diesel

Speed

3000 rpm

Fuel Consumption

0.35 lt/KW/h
