

Paguro 20000 EY

Powered by a YANMAR engine and featuring twin circuit cooling, the Paguro 20000 EY is a smooth, quiet running generator and a great choice for larger yachts and commercial vessels with significant power requirements.

Peace & Quiet

Cocooned in a 4-stage soundproof capsule, keeping noise as low as possible. Two sets of anti-vibration feet ensure that noise transmitted by vibration is kept to a minimum, resulting in a smooth running and very quiet generator.

Independence

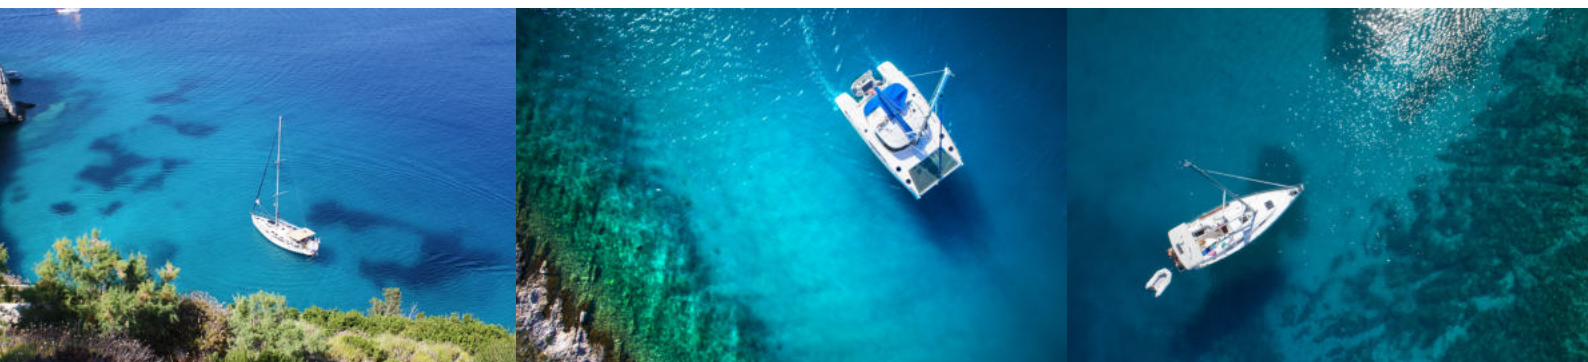

With a Paguro 20000 EY on board you can enjoy the full potential of your yacht. With a power supply greater than having shore power on board, you'll have the freedom to explore in comfort and safety.

Low Cost of Ownership

Designed for ease of maintenance and single side servicing, with an oil change hand pump for clean and easy oil changes. It also has the added bonus of longer service intervals than comparable generators.

Safe Hands

The popularity of the YANMAR & Paguro brands around the globe ensures that wherever you are in the world, you won't be far away from spares and servicing support, giving you the freedom to cruise with peace of mind.

Model

Paguro 20000 EY

Dimensions (LxWxH)

1120 x 630 x 770 mm

Weight

450kg

Sound level @ 7m

49 dB(A)

Cooling System

Fresh water cooling via heat exchanger

Continuous output

18.5kW / 18.5kVA

Peak Current for Start-Up Loads

240A (2 seconds)

Voltage / Frequency

230V / 50hz

Alternator

Synchronous / brushless

Starter System

12V electric start

Remote Control Panel

Paguro 20000 EY control

Auto Start

Available as an option

Engine Manufacturer

YANMAR

Engine Type

4TNV84T - 4 Cylinder - Diesel

Speed

1500 rpm

Fuel Consumption

0.35 lt/KW/h
