

Paguro 22 EK

The Paguro 22 EK marine generator is the most powerful generator in the Paguro range. Using the latest four cylinder Kohler KDI 2504-M Common Rail engine, it is a smooth, quiet running generator and a great choice for larger yachts and commercial vessels with significant power requirements.

Peace & Quiet

Cocooned in a 4- stage soundproof capsule, keeping noise as low as possible. Two sets of anti-vibration feet ensure that noise transmitted by vibration is kept to a minimum, resulting in a smooth running and very quiet generator.

Independence

With a Paguro 22 EK on board you can enjoy the full potential of your yacht. With a power supply greater than having shore power on board, you'll have the freedom to explore in comfort and safety.

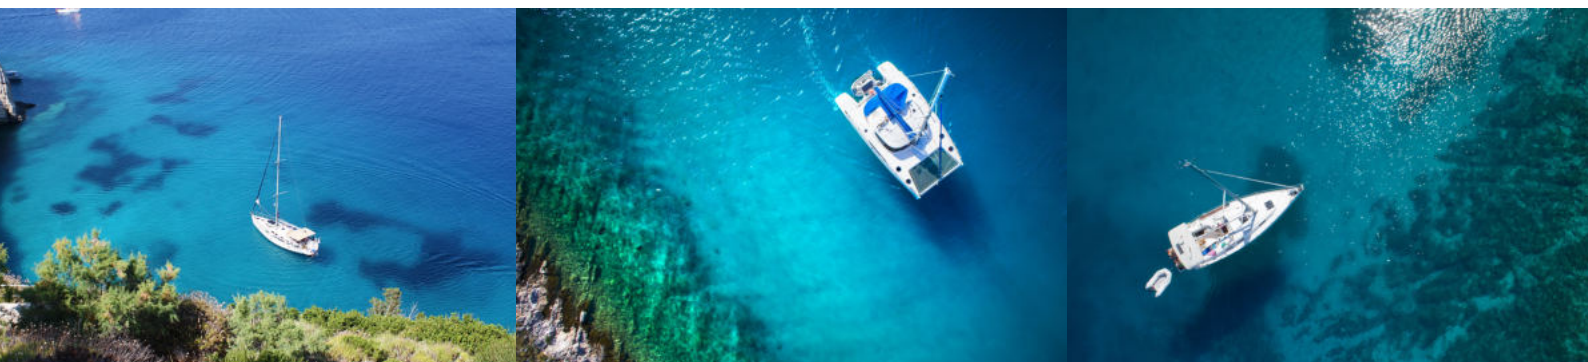

Reliable Power

The combination of AVR regulated oversized watercooled brushless windings and a Kohler engine will give you the power you need and the peace of mind you want.

Safe Hands

The popularity of the Kohler & Paguro brands around the globe ensures that wherever you are in the world, you won't be far away from spares and servicing support.

Model

Paguro 22 EK

Dimensions (LxWxH)

1224 x 631 x 828 mm

Weight

520kg

Sound level @ 7m

49 dB(A)

Cooling System

Fresh water cooling via heat exchanger

Continuous output

20kW / 22kVA

Peak Current for Start-Up Loads

280A (2 seconds)

Voltage / Frequency

230V / 50hz

Alternator

Synchronous / brushless

Starter System

12V electric start

Remote Control Panel

Paguro 22 EK control

Auto Start

Available as an option

Engine Manufacturer

Kohler

Engine Type

KDI 2504 - 4 Cylinder - Diesel

Speed

1500 rpm

Fuel Consumption

0.35 lt/KW/h
