

Paguro 9000

Powered by a LOMBARDINI engine featuring FOCS technology; a unique injection system that makes for a smooth, quiet generator that has an incredibly low weight for a generator of this power output. A favourite with large catamaran owners who need to keep weight down and still be able to run multiple air conditioning units, a large watermaker or an electric oven and hob.

Peace & Quiet

Cocooned in a 4-stage soundproof capsule to keep noise to a minimum. Anti-vibration feet, both internal and external ensures that the generator runs smoothly. The result is a generator that quietly does its job whilst you relax on board.

Independence

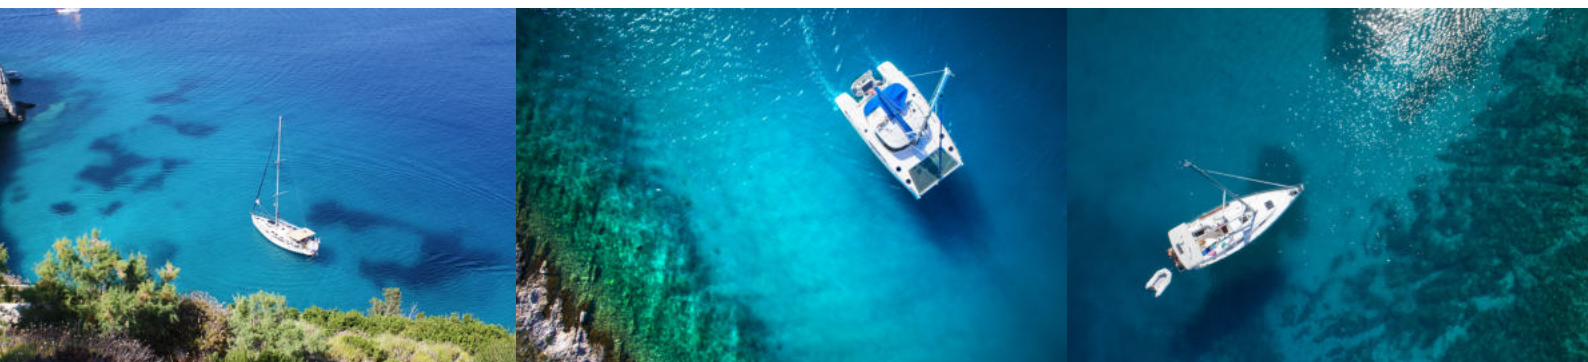

With a Paguro 9000 on board you can enjoy the full potential of your yacht. With a power supply greater than having shore power on board, you'll have the freedom to explore in comfort and safety.

Low Cost of Ownership

Designed for ease of maintenance and single side servicing, with an oil change hand pump for clean and easy oil changes. It also has the added bonus of longer service intervals than comparable generators.

Safe Hands

The Paguro 9000 is a tried and trusted design that has been in successful production for many years. The popularity of the LOMBARDINI & Paguro brands around the globe ensures that wherever you are in the world, you won't be far away from spares and servicing support.

Model

Paguro 9000

Dimensions (LxWxH)

720 x 460 x 620 mm

Weight

160kg

Sound level @ 7m

52 dB(A)

Cooling System

Fresh water cooling via heat exchanger

Continuous output

8kW / 9kVA

Peak Current for Start-Up Loads

102A (2 seconds)

Voltage / Frequency

230V / 50hz

Alternator

Synchronous / brushless

Starter System

12V electric start

Remote Control Panel

Paguro 9000 control

Auto Start

Available as an option

Engine Manufacturer

LOMBARDINI

Engine Type

LDW 702 - 2 Cylinder - Diesel

Speed

3000 rpm

Fuel Consumption

0.35 lt/KW/h
